Couples sessions

Celebrating togetherness

There might be a hundred reasons why you're thinking of a couples session; it might be the beginning of a life together, the announcement of your togetherness, documenting your family (fur-babies are always welcome) or celebrating a milestone. Whatever those reasons are, a couples session is a fabulous way to celebrate them all.

> You and Me | Unscripted (Adventure session)

You and your partner
1-3 hours of session time, depending on and including hike time if required.
Experienced location scouting and wardrobe advice

For couples who crave more than posed smiles and familiar spots. This adventure session is about stepping off the beaten track together—whether that's a windswept beach, a hidden forest trail, or somewhere only the two of you know. It's perfect for discovering beautiful New Zealand landscapes in their raw and untamed beauty.

We'll take our time exploring, chasing golden light, and capturing the unplanned moments that unfold along the way. Think of it less as a photo-shoot and more as an experience you'll relive every time you see your images—raw, real, and uniquely yours.

Adventure sessions can require some hiking to access the most beautiful iconic locations and can include a variety of New Zealand landscapes.

Includes 35 edited high resolution digital images, with the option to view a complimentary extended gallery. Optional additional image bundles are available as extras.

$1250 (travel within 80kms of Cambridge is included)
